

THE BUSINESS

It all started in northern Romania with a brilliant idea that was constantly developed and improved over the years so that today it has become a successful business in the Eastern Europe automotive market: **ATP Exodus Group**.

We started in 1995 as a family business by importing and distributing spare parts for trucks. Today the company focuses its work in 3 major fields: truck spare parts, auto dealership, transport & freight forwarding.

OUR DIVISIONS

ATP Transit

ATP Automotive

ATP Motors

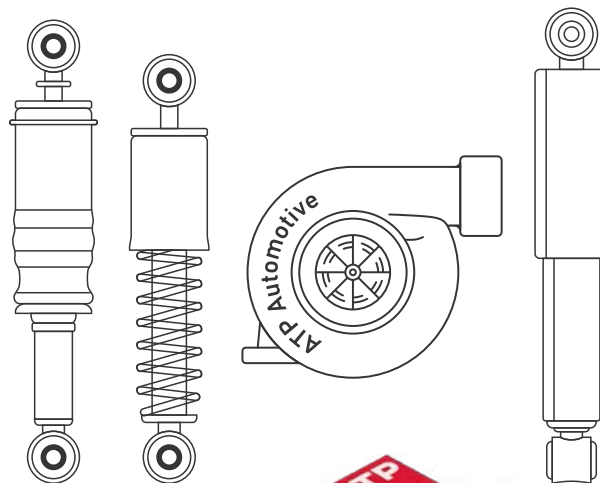

ATP Automotive

ATP Automotive is the largest division of **ATP Exodus Group**, which provides high quality parts for trucks by trading international brands and by manufacturing its own brand.

The ATP Automotive brand currently covers a broad range of product groups for European trucks, buses and trailers makers:

Daf, Iveco, Man, Mercedes, Renault, Scania, Volvo.

ATP Automotive

The ATP Automotive spare parts have the following advantages:

01

Quality at European standards, similar to OE

02

High stock availability, to ensure the shortest delivery time

03

Fast reaction to warranty claims and any other possible claims

04

High number of fast-moving codes for the applications and truck makers - the most usual ones

By launching its own branded products, ATP Automotive strengthens its positioning on the market of truck spare parts.

Our warehouse has a capacity of **8.000 pallets** and over **10.000 articles**.

ATP Automotive

ATP Automotive represents all brands of automotive, and we have solutions for all truck makers in Europe.

ATP Transit

**ALWAYS IN MOTION.
ON LAND, WATER, AIR.**

**The ATP Transit Division
provides domestic and
international courier services**

and operates on the general or dangerous goods cargo service market under full truckload or less than truckload shipping, with trucks from our private fleet or that of our partners'.

ATP Transit

ATP Motors

Brands such as MAN, Ford, Mercedes-Benz, Mazda, Opel and Suzuki are sold by the ATP Motors division, which also manages service for them, providing customers with the full range of motor vehicle services such as consultancy, maintenance, inspection and repair.
